CARRSVILLE BRIDGE REPLACEMENT DEMOLITION AND INTERMITTENT STOPPAGES SCHEDULED

ISLE OF WIGHT – Beginning Wednesday, June 8, 2016 crews with the Virginia Department of Transportation (VDOT) will begin demolition of the Carrsville Bridge at the intersection of Old Myrtle Road. Motorists should expect intermittent stoppages with flagger operations to last up to 15 minutes in each direction, until Friday, June 17, 2016.

The Carrsville Bridge Replacement project has been underway since March 2016 and is scheduled for completion in November 2017. The project will replace the bridge, to include realignment of the south bridge, removal and replacement of the existing bridge over the CSX Railroad on Route 58 and installation of storm water facilities. All construction work is dependent upon weather conditions. Please drive with caution at all times through the work zone.

During the project, the road will remain closed and a signed detour will be in place. To learn more, please visit http://www.virginiadot.org/projects/hamptonroads/carrsville_highway.asp.

Motorists are encouraged to visit www.va511.org, call 511, listen to Highway Advisory Radio (HAR) 1680 AM or call the Traffic Information Line at 757-361-3016 for current traffic and travel information.
